Pointer lift, 2 posts 6 ton capacity

Pointer lift, 2 posts 6 ton capacity

Features:

1. Arm carriage is bend with a whole steel with more force area, stronger for more lifting weight.
2. With short and long 3-step arms in front and rear for lifting long wheel base and heavy vehicles.
3. With 100mm and 120 mm (4pcs each) height adaptors for lifting vehicles with different chassis height, like SUV or car.
4. The adaptor bracket is cut by laser cutting machine, smooth and beautiful.
5. Width is extended to 3350mm. Height can be extended from 4594 mm for lifting vehicles with big wheel base and high chassis. Steel rope diameter is 11mm. It's very safety for heavy vehicles.
6. With global famous seals decreased leaking oil and with top grade power unit.
7. With electric and air connecting unit, convenient for workers to use electric tools.
8. Four safety protection: anti-explosion oil pipe, automatic attracting electromagnet, self-lock hydraulic cylinder, self-lock arms.
9. Strong structure designed by CE standard.
10. The whole design suit for tyer assembling, chassis checking and maintenance, oil changing, vehicle checking, etc.

Technical Specifications

Specification	Value
Capacity	6000kg
Min. Height	95mm
Lifting Height	1990mm
Rise Time	50s
Descending Time	30s
Total Height	4594mm
Inner Width	3350mm
Total Width	4000mm
