Pointer scissor lift 3.2 tons low profile

Pointer scissor lift 3.2 tons low profile

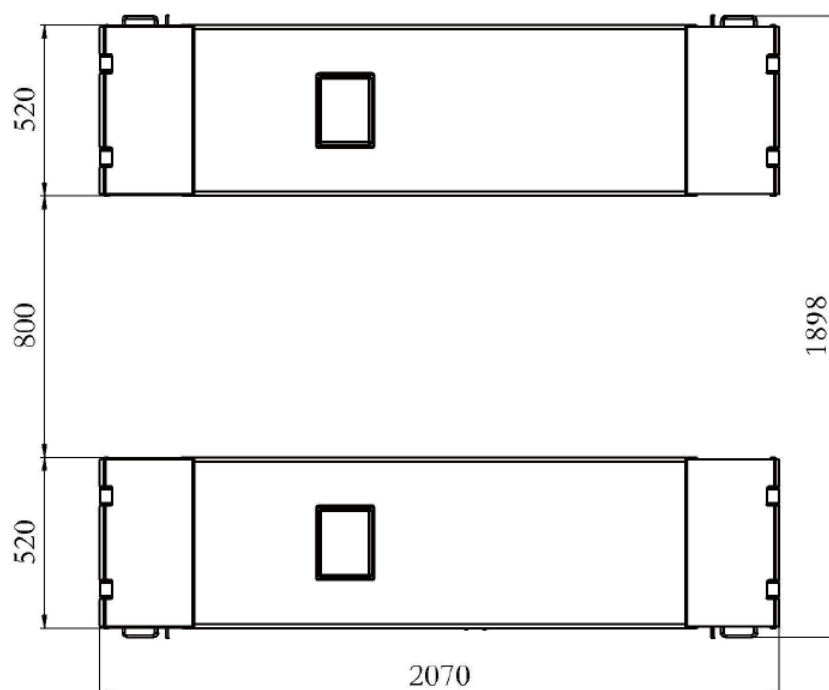

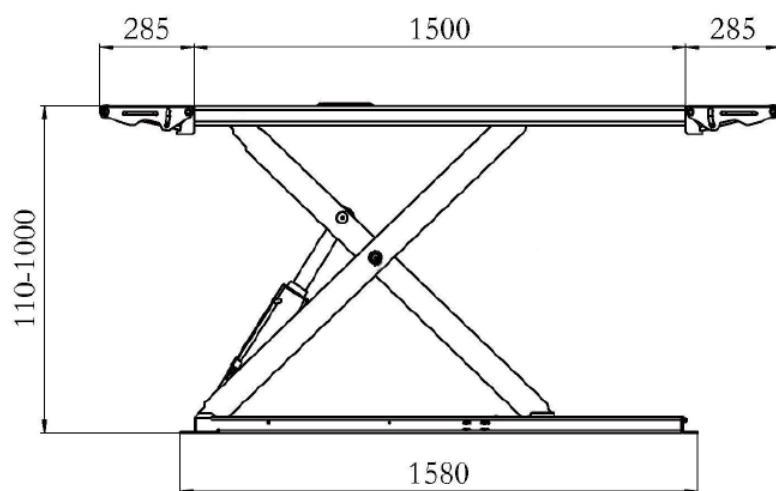

Features:

1. Equipped with easy leveling design, bring you a simple and fast leveling adjustment. Much lower failure rate than before; These two oil circuit systems are hydraulic locks for each other, which is safe and secure.
 2. Minimum height is only 110mm, suitable for on ground installation.
 3. Main platform length is 1500mm, can be extended to 2070mm.
 4. Imported hydraulic seals, the whole system is reliable. Scissor arms with International Standard solid steel Q345, very stable.
 5. Maximum height is 1000mm, Frame height adaptor is optional. Satisfy different customer's requirement.
- Ideal choice for quick tire replacement and simple service.

Specifications:
